Mustang Dark Horse R MoTeC Post Event Scrutineering Data Submission Format

Issue: For the 2025 racing season, all qualifying and race MoTeC C187 data will need to be submitted by teams for post event scrutineering
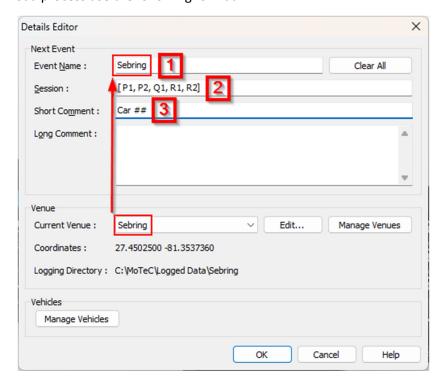

Action:

- Follow the procedure below to submit your data within 90 minutes of completion of each qualifying and race session.

Procedure: Submission of event data

Download Format

During the download process use the following format:

Figure 1: MoTeC C187 – Details Editor.

1. Event Name:
   a. Should match the name of the 'Current Venue' imported from Motec's database of tracks.
2. Session:
   a. Select from one of the options shown in brackets in Figure 1. Those options are:
      i. P1 – Practice 1
      ii. P2 – Practice 2
      iii. Q1 – Qualifying
      iv. R1 – Race 1
      v. R2 – Race 2
3. Short Comment:
   a. Enter the IMSA car number (this is the door number, not the chassis serial number.)

File Name Format

The name of the data file should **NOT** be changed from the MoTeC default naming convention.

Format Example: '*20250218-2814700.ld*'

Breakdown of a data file name: 20250218-2814700.ld		
20250218 – Date ("YYYYMMDD")	28147 – Dash Serial No.	00 – Outing #

Media Format

The file should be copied to a USB thumb drive supplied by Ford Performance (FP) with the car door number clearly written on it and shared with FP engineering support after each required session.
