

**July 30th, 2024**

**Technical Service Bulletin – 11**

**Safety Harness and Helmet Support Net Collars**

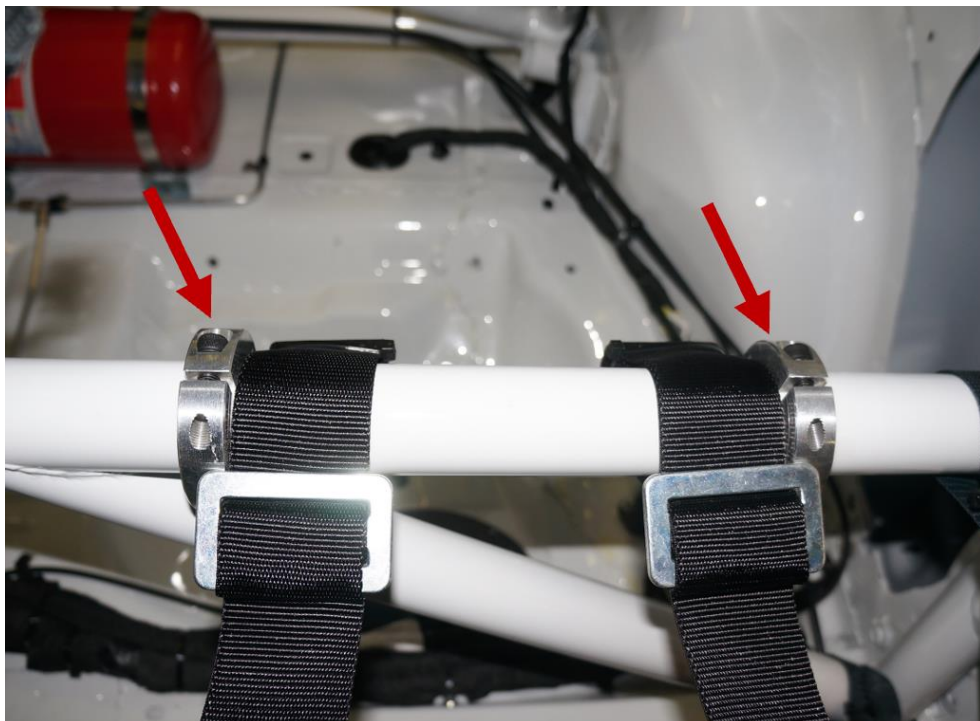

Issue: More robust position control for safety harness and helmet support net webbing is required.

Action: Install collars per photos below.

**4 collars will be provided:**

**Seatbelt**

- Install 2 collars to limit outward safety harness movement on safety cage bar to ensure proper alignment on HANS device

## Helmet Support Net

- Install 1 collar on main safety cage hoop as shown to ensure helmet support net is just in contact with seat

- Install 1 collar on main safety cage center area as shown
